

RESPECT, SUBBING AND CARDS

April 2011

Be Respectful at all times.

When subbing, coaches are requested to be prepared in advance, and send their subs to the halfway line, except when making a sub due to injury.

Coaches are asked to ensure their parents and players stay well back from the field line, so AR's have an unblocked view of the line, and can tell when a ball has crossed the whole line and gone out of play.

Coaches are responsible for their parents as well as themselves. If either a parent or coach is abusive, the coach should receive a verbal warning. If the abuse continues, the referee should card the coach (yellow first, and then red if persistent abuse continues).

Any coach that receives a red card is required to leave the field before the game can continue, and must miss the following two games. This will continue into the following season if both games are not missed.

If cards are given, please notify Tracy. For a red card call Tracy on (248 672 5451), and if a yellow is given, send an email to tracy@layslonline.com.
